**LOCATION**

We are located on the main road between New York and Boston, can make shipments by freight or express from New London, also have good shipping facilities by boat to New York and various other points.

We are located in the lightly infested Gypsy Moth area, though all of our stock is carefully inspected by a Federal Inspector, and we are glad to say that none of the moth has ever been found in our nursery or within a radius of three miles around our grounds.

We are not in the Japanese Beetle area, and can ship all of our goods with ball of earth without danger.

For the benefit of those not acquainted with our establishment we wish to inform them that we have fifty acres devoted to the growing of lining out stock in seedlings, cuttings and grafted stock, and are trying hard to produce the best class of stock at a most economical method, so that we may turn it over to our customers to grow on with a small margin of profit for production.

We are, at all times, glad to have you call on us, and will gladly show you the grounds, so that we may get better acquainted.

We try to serve all of our customers alike; by this method, since our establishing in 1916, we have managed to be able to refer you to Dunn's or Bradstreets or any of our local Banks for references.

## TERMS

Payment: Fall orders are due December 1st; Spring orders, June 1st after date of delivery. Orders from unknown parties must be accompanied with full cash or satisfactory references.

Packing at cost. 5 at 10, 50 at 100, 500 at 1000, 3000 at 5000 rate.

## CERTIFICATE OF INSPECTION

A certificate of inspection of the State Entomologist will accompany each shipment.

## COMPLAINTS

Should there be any reason for complaint, we must be notified on receipt of goods, otherwise we cannot entertain it. We make it a point to give all reasonable claims proper consideration.

## ORDERS

Orders are accepted upon condition that they shall be void should any injury befall the stock from frost or other cause over which we have no control.

## GUARANTEE OF GENUINENESS

While we exercise the greatest care to have all our trees and plants genuine and reliable, and hold ourselves prepared to replace on proper proof, all trees that may prove untrue, we do not give an warranty expressed or implied; and in case of any error on our part it is mutually agreed between the purchaser and ourselves that we shall not at any time be held responsible for a greater amount than the original price of the stock.

We guarantee all our stock to be in condition on leaving our hands, but we do not guarantee it to grow under all conditions, nor do we make up any loss whatever due to climate effects, or after culture on the part of the purchaser, and the risks of transportation are to be borne by purchaser. When losses occur by detention, claims should be at once made on forwarders.

Following list of one year Evergreen seedlings may be transplanted very nicely in the fall, planting them in beds two or three inches apart, so that they may be left for one or two years, shading the beds carefully with lathe shades and covering them with a light covering of straw over winter.

## SPECIAL ITEMS

*Taxus Cuspidate, Japanese Yew.* One year seedlings.

Every nurseryman and florist should grow on a few of these, as they are far superior to the cutting grown plants, as seedling stock will produce over seventy per cent of plants with terminal leaders, making the plants of the capitate or upright type, and can be grown into nice pyramids.

	per 100	per 1000	per 5000
One year seedlings.....	\$3.00	\$25.00	\$110.00
Special price on large quantities.			

*Concolor Fir, of the true Colorado or Blue type.* One year seedlings.

Concolor fir grows into a tree almost as nice as the Blue Spruce, and demands a good call all the time, though rather hard to transplant, it will do very well if seedlings are transplanted frequently when young, which makes it quite an advantage when grown on.

	per 100	per 1000	per 5000
One year seedlings.....	\$2.00	\$15.00	\$65.00
Special price on large quantities.			

*Mugho Pine, of the true dwarf type or many branched type.* We have about fifty thousand two year seedlings to offer.

	per 100	per 1000	per 5000
Two year seedlings, 2-4".....	\$3.00	\$20.00	\$ 90.00
Four year old once transplanted, 2-4"....	3.00	25.00	110.00
"    "    "    "    "    4-6"....	7.00	50.00	50.00

P.S.: The above Mugho Pine must not be compared with the ordinary seedlings, as we have those to offer at considerably less, and offer them as follows:

	per 100	per 1000	per 5000
Two year seedlings, 4-6".....	2.00	\$12.00	\$50.00
"    "    "    "    "    6-8".....	3.00	20.00	90.00

*Picea Pungens Glauca, Colorado Blue Spruce* grown from seed collected of the true Koster Blue Spruce, though we do not guarantee these seedlings to come a hundred per cent Blue trees, we feel pretty confident that a large percentage will be of a very nice blue shade, and are worth the difference in price from the ordinary seedlings.

	per 100	per 1000	per 5000
Two year seedlings, 2-4".....	\$5.00	\$40.00	\$175.00

## ROOT GRAFTS

### Ready for Delivery in the Early Spring from Storage

These grafts may be bedded or planted out without shade, and usually give excellent stands, they are far better than cuttings or seedlings, as they will come true to name and color, which is not true with seedlings.
